

THE PAVILION AT AUTUMN CREEK VINEYARDS

THE VENUE

Rustic, yet naturally elegant are the words that best describe our 6,000 square foot event pavilion currently under construction. This facility will be available for your event Spring of 2011. The structure features hand-crafted timber trusses, posts and beams with a grand stone fireplace as the focal point. The Pavilion will also feature a patio great for greeting guests, additional event seating or serving cocktails prior to your event.

Other amenities include retractable walls making the facility open so you can enjoy warm spring and summer breezes or closed off to protect your guests from rain and inclement weather, this also means the facility is climate controlled. The Pavilion will have a warming kitchen convenient for catered receptions, rehearsal dinners, private parties, corporate functions or charity galas. Another great feature is the state-of-the-art audio/visual system that can be used for wedding slideshows or as a classroom function for your next off-site corporate meeting or training session.

The Pavilion is nestled beside ACV's lush vines and adjacent to the Gazebo and Tasting Room. It offers panoramic views of the vineyard and surrounding grounds.

Combined with the location of the Pavilion and Autumn Creek's other outdoor areas we offer an unforgettable venue for your next event.

So, come one out and relax by the water's edge and enjoy the sunset with a glass of your favorite Autumn Creek selection...Bottoms Up!
